

SONIK[®]
CONSUMER CATALOGUE // 2018

SONIK®

With over 100 new products across 10 key categories, the SONIK range for 2018 is focussed on delivering total customer satisfaction.

Our aim is to offer a concise range of well designed products that deliver on every level and offer great performance, quality and value for money.

With three key new range introductions, our carp offering has never been stronger. Best known for our rods, this year sees the Sonik range simplified into three core ranges of 'VADERX', 'DOMINATORX' and 'GRAVITYX'.

Whatever your budget, we are confident you will be able to find a rod, reel or full outfit to suit your needs without breaking the bank.

The new SK-TEK range of soft goods replaces the previous SKS series and includes shelters, sleeping equipment, chairs and luggage.

Each item has been carefully designed and developed to be functional, durable and provide more comfort and protection on the bank.

The luggage features our own new unique custom camo material and incorporates many unique features that help to organise and store equipment more effectively.

For the keen lure angler, the new Magna rods have been extensively tried and tested to cover most fresh and saltwater applications with hard and soft lures.

The stunning cosmetics are sure to appeal and we look forward to adding other items to this range during 2018.

Last but not least, our sea range has been expanded to include fixed spool reels, luggage and accessories with clothing to come later in 2018.

Whatever your chosen discipline, we hope our equipment helps to increase your enjoyment of the sport and will continue to do so for many years to come.

GRAVITY X

POWER AND FINESSE OPTIMISED

FORGED FROM GROUND BREAKING NANOALLOY MATERIAL
LIGHTER / SUMMER / FASTER / STRONGER

WWW.SONIKSPORTS.COM/GRAVITYX

CARP GRAVITY X CARP RODS

The ground-breaking Gravity X Carp Rods are made from a revolutionary new Nanoalloy® carbon fibre material which results in a rod that is slimmer, lighter and stronger with a faster tip recovery - the 'Holy Grail' of all rod development.

From a 3lb 40mm option that is incredibly light and well balanced in the hand with a beautiful action, to a powerful 3.5lb 50mm rod that packs all the power needed to cast extreme distances, the rods come in full cork, abbreviated and slim shrink wrap versions to suit your preference.

The perfect blend of power and finesse, all rods come fitted with the very latest lightweight titanium, impact resistant SIC double legged guides, an 18mm FUJI DPS reel seat to securely house any big pit reel and a full 1K carbon weave which runs the full length of the blank for added durability and looks.

The black ring tyings are tipped with metallic blue thread to perfectly match the inserts on the machined ventilated collars at the front and rear of the reel seat.

NANOALLOY®

NANOALLOY
TECHNOLOGY

NANOALLOY® technology is an innovative microstructure control technology from Toray Industries Inc. that can bring about dramatic improvement in characteristics compared to existing materials by minutely dispersing multiple polymers on a nano-metric scale.

SPECIFICATION

- » Manufactured from revolutionary new Nanoalloy® carbon fibre material
- » Full 1K carbon weave throughout the whole rod
- » Fuji DPS 18mm Reel Seat with gunsmoke hoods
- » Ventilated front & rear collars with metallic blue inserts
- » Lightweight Titanium impact resistant SIC double leg guides
- » Available in Abbreviated, Full Cork & Slim Shrink Models

CARP

DOMINATORX CARP RODS

NEW

New for 2018, the class leading DominatorX carp rod range incorporates a high modulus 1K woven carbon fibre blank and multi-directional tip section carbon lay-up for unparalleled accuracy and performance.

A smooth progressive casting action is matched to a slim lightweight blank that is bang up to date for the latest carp fishing tactics. Whether it's launching leads and PVA bags to the horizon or battling hard fighting fish at close range, the DominatorX rods keep you in control.

The butt and lower tip section features full 1k woven carbon with a sleek Fuji DPS-18 reel seat, stealth black anodised collars, slim shrink wrap handle and laser etched butt cap.

SPECIFICATION

- » High modulus carbon fibre blank with 1k wrap
- » Multi-directional tip section carbon lay-up for increased accuracy
- » Lightweight low-profile double leg black SIC guides and anti-frap tip
- » 50mm ringing pattern on 12' & 13' models
- » Fuji 18mm DPS Black reel seat
- » Understated cosmetics
- » Line friendly custom contoured Sonik clip
- » Slim Japanese shrink wrap butt grip
- » Black anodised collars and butt cap laser etched with 'S' logo

CARP TOURNOS 6000 REEL

As a smaller version of the hugely popular 8000 model, it is ideal for use on shorter rod sizes that are becoming increasingly popular on the small waters of the UK. Built to the same spec as the larger 8000 & 10000 models, this silky smooth and tough reel is sure to be popular with anglers looking for quality, reliability and great value in a smaller big pit reel option. With generous line capacity and a 1 turn quick drag setting, the 6000 is another must have product from Sonik.

SPECIFICATION

- » High strength carbon composite body/rotor
- » 8 + 1 stainless shielded bearings
- » Instant anti-reverse system
- » Long cast angled spool lip

CARP
DOMINATORX LANDING NET

NEW

The DOMINATORX Landing net is manufactured from high modulus carbon making it both lighter and stiffer. The extra length of the 2-piece 8' handle means that netting fish is made quicker and easier. The handle can also be used in a 4' length as a great boat net. It has a compact stainless spreader block and the super stiff net arms have curved end protectors. The medium depth green mesh is perfect for easy manoeuvrability but also deep enough for you to safely hold a fish for a short period in the margins. Finished off with a discrete matt black finish and quality case.

SPECIFICATION

- » Extra length 8' PC handle
- » Stiffer carbon composite handle and net arms
- » Stainless steel spreader block and arm ends
- » Easy flow medium depth green hex mesh
- » Net retaining loop
- » Anodised and laser etched butt cap
- » Supplied with slim carry sleeve

XTI ALL SEASON SLEEPING BAG

The new XTI Sleeping Bag is the only sleeping bag you will ever need as it is effectively four sleeping bags in one! With a removable inner bag it means you can easily convert from winter to summer use depending on conditions. As a winter bag, it ranks as one of the warmest on the market and the clever part is that it also has a zip out fleece lining that can be used in either summer or winter mode.

SPECIFICATION

- » 20,000mm HH Waterproof 'Armatek' outer material
- » No stitching on top prevents heat loss and water leaks
- » Removable inner allows you to choose between polyester or fleece lining for both summer and winter options
- » Elasticated hoods top and bottom with offset central fixing to bedchair
- » Heavy duty anti-snap internal zip baffle with double 10mm quick release zips with top clip
- » Internal and external draught-proof baffles
- » Designed to work in-conjunction with the Sonik XTI Bedchair Range

XTI LOUNGER CHAIR

The new XTi Lounger chair is packed with a multitude of features that are designed to offer one thing - angler comfort.

The extra high back height houses a padded head support, while the extra thick foam mattress has a fleece cover so it can be used for hours on end. A cam lock reclining function allows the chair angle to be positioned at different angles to suit your mood. Built on a lightweight, but strong steel frame, the adjustable locking legs with added mud feet allow flat support on any terrain.

SPECIFICATION

- » High back height with head support for maximum comfort
- » Cam lock reclining function allows the chair to be set at different angles
- » Extra thick foam mattress with fleece cover for extra warmth
- » Adjustable locking legs with mud feet ensure a flat support in any terrain
- » Steel frame provides strong and reliable support
- » Covered arm rests protect your skin against the cold metal in cold conditions

SK-TEK SLEEPING BAG

NEW

The SK-TEK sleeping bag offers full 5-season insulation and is extremely efficient at keeping you warm. The high-quality silicone treated hollow fibre fill maintains its loft for maximum heat retention. A new hood design gives maximum versatility and allows enough movement for the bag to form around you no matter what your sleeping position. There is a fleece lined upper for warmth and a smooth polyester lined base for easy movement inside the bag with an additional smooth polyester stubble guard neck lining. The head and foot sections both have drawstrings that allow you to thicken the insulation and eliminate cold spots for a cosy nights sleep.

SONIK
MAGNA

A stylized red dragon logo is positioned behind the text. The dragon's head is on the right, facing left, with its mouth open showing sharp teeth. Its body curves under the word 'MAGNA' and then loops back to the left, ending in a tail that curls upwards. The dragon is rendered in a solid red color.

LURE MAGNA TRAVEL SPINNING RODS

NEW

The new and upgraded MAGNA Travel Spinning Rods really are the next step up in serious spinning rods. Built with a 1K carbon weave on the butt section for durability the rods are also finished in a stylish matt black to reduce any flash and an anodised red for eye catching good looks. The abbreviated handle is shaped for comfort, while the lower handle is shaped for excellent grip resulting in more power being transferred from the angler to rod while casting. Finished with a laser engraved winding check, matching whippings and the new 'click-safe' down-locking reel fitting these rods are a must for any serious lure angler.

SPECIFICATION

- » Lightweight, fast action blanks
- » Abbreviated, ergonomic duplon handles with stylish red anodised trim
- » 1K Carbon Weave on butt section gives durability and style
- » Matt black finish on top 3 section for zero flash on sunny days
- » Click safe down-locking reel fitting
- » 'K' style guides for low line friction whilst casting
- » Laser engraved winding check
- » Section Line up dots
- » Supplied in customised cloth bag and matching triangular cordura tube
- » Full slim cork handles

MAGNA DROPSHOT SPINNING RODS

NEW

The NEW Magna Dropshot rods by Sonik certainly are a formidable dropshot rod, working equally as well for light lure fishing. The blanks have extremely sensitive tips, allowing for precise casting and direct action to be imparted to the lure. The fantastic power in the butt section will allow you to deal with even the largest of fish.

Lightweight 'K' style guides are excellent when using fine braid and the custom click safe down-locking Sonik reel seat house your reel securely during repeated casting.

These rods are a pure joy of a rod to fish with and will turn a good days fishing into one to remember.

SPECIFICATION

- » Lightweight, fast recovering blanks
- » Super sensitive white tips for optimum bite indication
- » Powerful butt sections for increased strength and striking power
- » Abbreviated, ergonomic duplon handles with stylish red anodised trim

LURE FISHING RODS

REACH YOUR POTENTIAL

The new ZX Shore rod series from Sonik covers all bases. From clean sandy beaches to a kelp-strewn rock mark, there is a rod in the range to suit. The high modulus Japanese Toray carbon fibre blanks are slim, light and very powerful, with a user friendly action. From an overhead thump, to a full-blown pendulum, the fast recovery blanks will increase your distance without taking your back out!

Aside from the incredible casting potential, these are awesome fishing rods, with great bite registration and progressive action for playing fish. A top-quality build with slide-lock Fuji reel seat and Fuji KWAG guides, they are suitable for fixed spool or multiplier use.

GRAVITY SURF

The Sonik Gravity Surf rods widen the boundaries of shore rod development. Incorporating a high modulus carbon fibre & low resin blend, the Gravity Surf rods have some of the highest strength to weight ratio ever seen in a shore rod. Finished with an unground carbon wrap to add strength, along with a hi vis spliced glass tip to give unparalleled bite detection, even at long range; the Gravity Surf rods tick all the right boxes when looking for a market leading continental style surf rod.

Complete with a Fuji Reel seat and Fuji Alconite K Series Guides which are under and over-whipped to add extra durability as well as eye catching good looks. The guide spacing ensures great balance and minimal casting resistance when teamed up with large fixed spool style reels. Available in a 14'4" & 15'4" models, the new Sonik Gravity Surf Rods will help you reach those never before reached marks with the minimum of fuss.

SPECIFICATION

- » Featherweight High Modulus Carbon Blanks
- » Fuji Alconite K Series Guides
- » Fuji Reel fitting
- » Shrink wrap on the lower handle to improve grip whilst casting
- » White spliced glass tips for easy bite detection in poor light conditions

SEA QUIVER HOLDALL

NEW

Protect your valuable rods with this fully padded dual section rod quiver which features an adjustable shoulder strap, external tripod pocket and reinforced base. Side compressions straps keep your kit secure and stable on longer coastal hikes to those productive secluded marks. Large enough to hold several rods and a shelter without being cumbersome to carry. Fully lined and made from hard wearing waterproof PVC fabric reinforced in all the key wear areas.

SPECIFICATION

- » Waterproof hardwearing PVC fabric
- » Reinforced base.
- » Adjustable Padded shoulder strap.
- » External pocket and straps designed to carry a rod rest.
- » Two side compression straps
- » Size 140 x 18 x 14cm
- » Internal size Top - W27 D17 H6cm
